MOHD SHAHNAWAZ

DEVELOPER

Jaipur | mohdshaan9456@gmail.com | LinkedIn | GitHub | +91 9456702910

SUMMARY

Highly motivated Full-Stack Web Developer with expertise in designing, developing, and deploying scalable, responsive web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in building RESTful APIs, implementing database solutions, and applying secure coding practices. Experienced with AI-assisted development tools for faster development and efficient debugging. A quick learner with strong problem-solving abilities and a proven ability to design, deploy, and maintain production-ready web applications.

PROFESSIONAL SKILLS

Problem-Solving, Visual Design, Adaptability, Design Understanding, Team Collaboration, Time Management

TECHNICAL SKILLS

JavaScript, React, Node.js, Express.js, MongoDB, HTML5, CSS3, MySQL, REST APIs, Git, WebSocket, Hoppscotch, Docker (familiar), Kubernetes (familiar), Vercel, Java, Cursor AI

PROJECTS

Ilzifa Solution – Interior Design Website | https://www.ilzifa.com **Dec 2025 - Jan 2026**

- Created a responsive, SEO-optimized business website with 5+ core pages using Next.js (App Router) and React with server-side rendering.
- Implemented a secure contact form with the Resend API for automated user confirmation emails and real-time admin alerts.
- Deployed and managed the application on Vercel, including custom domain configuration, environment variable management, and production builds.

Wanderlust – Property Listing Web Application (Airbnb-style)

- Architected and built a full-stack property listing web application (Airbnb-style) using the MERN stack (MongoDB, Express.js, React.js, Node.js) with real-time data handling and concurrent user sessions.
- Integrated RESTful APIs to handle multiple user requests per session.

EDUCATION

Bachelor of Computer Applications (BCA) **Aug 2023 - July 2026**

Jaipur National University, CGPA (2nd Year): 8.7/10

- Specialization in Cybersecurity

Diploma in Computer Application (DCA) **May 2021 - April 2022**

Future Point & Computer Institute, Amroha, Uttar Pradesh

EXPERIENCE

Web Developer (Academic & Project Work) **Aug 2023 - July 2026**

- Built full-stack applications using the MERN stack and Next.js across 2+ academic and project-based projects.
- Collaborated in 3+ group projects, leading backend development and API integration, improving delivery efficiency by 15%.
- Followed SDLC processes in major projects to support sprint-based deliveries.
- Participated in code reviews and debuggingto enhance code quality and peer learning.

ADDITIONAL INFORMATION

Languages: English, Hindi

Certifications: Robotics & IoT,

Full-Stack Development (MERN), DSA & Aptitude – Apna College (Training)
